March 22, 2011

What's new at the Club

If you've seen some construction going on by the clubhouse you've seen our new septic system being installed. It is now operational and the good news is there has been no disruption in services and business as usual in the clubhouse! There is a flyer going out to all Gabriolans celebrating the opening of the Golf season on Sunday March 20th, the first day of spring. This is advertised as a free day of golf for all to see the course. People are invited to come out for breakfast, enjoy a free coffee and round of golf. The good

news is the clubhouse will be opening 7 days, the bad news is the course is still very very wet. So encourage your friends to come out and bring their wellies to golf! The flyer also advertises some new golf coupons and passes available for sale. Great packages for those who might not purchase a full time membership but wish to try out the club. Also, when your membership is renewed, you will be seeing two free coupons for golf and encouraged to bring out some new and potential members. The coupons

are good to the end of the year and we hope you will use them to encourage others to experience our great course and clubhouse. The coupons are valid when you accompany your guests.

President's Message

Rain, rain, go away come again some other day. Little golfers want to play. Well, maybe. It is warming up and activity will increase day by day. Our greens staff is getting ready to come back to work, but it will be a while before they can do much on the golf course. There are lots of other

things they will be doing. I recently attended the NCGOA convention in Vancouver and saw lots of interesting things. Most of which we can't afford, but.... We are looking forward to a good year and hope you are too. Come out to the club and see what's going on.

Harold Jenner, President

News for Golf Cart Owners & Renters

We are looking for your input! If you own your own cart, or rent one from the club, we would like to hear from you. Topics up for discussion include, but are not limited to: private cart storage facilities and fees, yearly rentals, storage building options, and ideas related to continued cart usage. This is your chance to make a contribution regarding these issues. Sunday, April 3 @ 2:00 PM, come to the clubhouse and let us know what you think!!
